

QUICK-START

For Leadership

See what it is, what it shows, and the decision it supports — in five minutes. Privacy-first, and a fraction of the cost of layered enterprise platforms.

1 See the why

Go to architectureofgrace.org and tap Explore the Framework — the four pillars and how one answer becomes a next step.

2 Explore with demo data

Open the Dashboard, then Load demo data to see Overview and Class trends on a sample group.

3 Open the MTSS report

Dashboard → MTSS Report: Individual / Class / School-wide, tier movement, auto summary, CSV + print cover.

4 See the closed loop

The Trajectory (multi-year growth) and the Goal Builder (relationship-centered IEP goals + progress monitoring) turn screening into action: assessment, insight, goal, support, re-measurement.

5 Picture rollout

Distribute makes a link or QR for a class — no code, no login. The Library holds the K–adult curriculum.

TRY THESE — new and worth it**• The home-school bridge, visible**

Trajectory, then Both, overlays a child's school and home growth on one chart — powerful for conferences and family partnership.

• Your data stays yours

Connect your school's OWN Google Sheet; a clear Connected banner confirms it. Nothing student-identifying is stored by Architecture of Grace.

Ready to pilot? The Pilot Program page has everything to start with one class or caseload.
